

Hello! I'm Praveen Babu B S

a UX/UI Designer

focused on creating intuitive, scalable interfaces for enterprise SaaS platforms. My work spans design systems, data dashboards, and Agentic AI experiences that blend clarity, function, and emotion. Skilled in Figma, interaction design, and motion, I believe great design simplifies complexity and helps users work smarter through thoughtful, consistent, and human-centered experiences. My path to design began with a Mechanical Engineering degree (2018), which shaped the structured, systems-thinking approach I bring to product work.

Skills

Core Design Skills

UX Design · UI Design · Interaction Design · Design Systems · Product Design · Visual Design · Wireframing · Prototyping · Usability Testing · User Research · Information Architecture · Responsive Design · Motion Design

Specialized Expertise

Conversational UI Design · Agentic AI/AI Product Design · Enterprise SaaS Design · B2B Design · CRM/CCaaS Platform Design · Atomic Design Systems · Data Visualization · Dashboard Design · Design Tokens · Accessibility (WCAG)

Tools

Figma · FigJam · Adobe Illustrator · Adobe XD · Storybook · Notion

Methods & Practice

Design Thinking · Human-Centered Design · Behavioral Design · Design Critique · Cross-functional Collaboration · Design-to-Development Handoff · Component Libraries

Other Interests

Beyond design, I love storytelling, Science Fiction, Essays, Fiction, Poetry, Short Stories, Photography, and Videography.

📁 [Portfolio](#)

UX/UI Designer at Worktual Innovations (Formerly Vectone Solutions) from 2023 to Present.

Design end-to-end UX/UI for a B2B CCaaS and CRM platform, owning flows from research through high-fidelity handoff

Led design of AI Agent features and a conversational chat interface, translating complex AI-driven interactions into intuitive, trustworthy user experiences

Built and maintain an atomic design system, ensuring consistency and scalability across the product

Collaborate cross-functionally with product and engineering to ship design-system-driven, production-ready interfaces

Sales Executive at Byju's Learning App in 2020.

Drove B2C sales for an ed-tech learning platform, engaging prospective customers to understand needs and present tailored product solutions

Built and managed a pipeline of leads, converting prospects through consultative, needs-based selling

Developed strong communication and objection-handling skills through high-volume customer interactions

Graduate Engineer Trainee at TI Metal Forming from 2019 to 2020.

Ensured and maintained high standards in manufacturing processes for optimal product quality. Contributed to the efficiency of manufacturing operations.
