UX/UI Designer at Worktual Innovations (Formerly Vectone Solutions), 2023 – 2026

Designed end-to-end UX/UI for a B2B CCaaS and CRM platform, from research through handoff — live in production for 20+ enterprise clients

Led design of a conversational AI Agent — task-flow architecture and interaction states — replacing multi-page navigation with a single workspace, shipped to production

Built and governed a 100+ component design system — tokens, variants, accessibility — adopted by a 10+ person design and engineering team

Freelance Designer (Self-Employed), 2020 – 2023

Provided web and graphic design services for enterprise and individual clients

Sales Executive at Byju's Learning App, 2020

Drove B2C sales for an ed-tech platform, engaging prospects through consultative, needs-based selling

Graduate Engineer Trainee at TI Metal Forming, 2019 – 2020

Maintained high standards in manufacturing quality processes

Contributed to process efficiency across manufacturing operations
